INTERNATIONAL

### Hausdörfer Frank, EFIAP, MPSA2, GPU VIP2, Germany

Frank Hausdörfer was born in East Germany in 1966. The western part was only 1 km away and was inaccessible until 1989. This "impotence" caused a wanderlust, which became the driving force for many trips. His work is characterized by seeing things that others do not pay attention to. The skilful use of depth of field and the play with light and shadow enable the photo artist to take very special snapshots, some of them "tell stories". The German does not see himself as a hobby or professional photographer, but rather as a photo artist, since he has never learned this profession. After the reunion of Germany, he has worked as a freelance journalist reporting sports and local news. Because of shutting down most of the daily newspapers, he studied social pedagogy. In 2006 he started focusing on model photography in his spare time. The Thuringian is known worldwide for his spectacular landscape photos - especially from South America. Hausdörfer was able to convince jurors from 34 countries with 100 different pictures. He has won over 700 awards, including more than 250 medals, in the past five years. In the last time he has also been a member of the jury in over 30 circuits. For example, the "Image of the Year" 2018 at PSA or the "ASIA SUPER CIRCUIT" 2019 organized by the APU, where 3 to 4 thousand images are submitted each month. In addition to the MPSA and EFIAP, Hausdörfer was able to achieve the Distinction GPU CR4, C \*\*\* MOL, and R-ISF 10, which very few photographers in the world achieved.

### Jovanovski Vladimir, EPSA, GPU CR3, North Macedonia

Vladimir Jovanovski, EPSA, GPU HERMES, RISF5, was born in 1983. He is a distinguished photographer from Macedonia and the most successful representative of Macedonian photography, having taken part in numerous international exhibitions around the world. He has exhibited his works in 35 countries and as a result, has received over 100 awards and certificates. He was proclaimed by The Photographic Society of Macao as one of the 100 most influential photographers in the world. In 2018, he has received the award for best world photographer from the Photographic Arts Federation of Turkey. His biggest successes, according to him, are the projects 'The other one hundred' and 'On Macedonian photography'. He was a member and president of the Photo cinema club 'Kozjak' from Kumanovo. Currently he is an active member of Photo club 'Kumanovo'. He is also the director of Malinski Photo Festival, an honorary member of Image Sans Frontier, Image Colleague Society and the Photo Club 'Kragujevac'. He is also a representative of PSA, GPU and ISF for the Republic of Macedonia and the current president of IAAP. When it comes to his photographs, he is not a mere recorder of things. He has a sense of the space around him, feeling the light, the ambient and life. He is constantly in search of all these things, confronting inner feelings, transferring them into his photographs. In the last couple of years, his approach has been more thematic.

### Markovic Anton, Montenegro

Born in Tivat, Montenegro in 1951. He has been engaged in photography since 1970 and worked as a photo reporter from 1981 to 1989. He was engaged as a collaborator in the realization of tourist catalogues and various monographs. Special interests have been art photography and documentaries. He took part in sixty-three (63) joint exhibitions in ex Yugoslavia and abroad and had ten (10) one-man exhibitions.

## FIAP BLUE BADGE

**Buecker Holger, EFIAP**  
Germany

I am a photographer from Hannover / Germany and have been interested in photography since my childhood but it was in 2008 when photography became a hobby. I am covering a lot of photographic topics, but concert photography is my great passion, especially as I do love music and the atmosphere of a good concert. Apart from that, concert photography is a challenge I love to bear: It is narrow and "crowded", always very loud, behind you there are the screaming fans, in front of you there is the artist, doing poses and gestures you have to capture within a second. No second chance. The light is extreme: too much or too little, frontal or colored ... And I am in the middle of it all, trying to catch the momentum, the atmosphere of the particular event. I am trying to transfer sound and style of the artist into the image. It is all about getting this one particular picture which tells the complete story. It's a about Music2See. It is pure adrenalin.
